 Av. Álvarez Calderón N° 185 of. 202,  
San Isidro - Lima - Perú

Jose Alemán specializes in electricity and hydrocarbons regulatory matters. He has advised agents of the energy sector in the development of projects, conducting regulatory due diligence for mergers and acquisitions, and has participated in national and international litigation of generation, transmission and distribution companies. Additionally, he has experience advising on antitrust, unfair competition and consumer protection issues.

He also has experience in licenses and permits proceedings and in administrative sanctioning proceedings. Additionally, he has participated in the negotiation, review and performance of power purchase agreements and transmission service contracts.

Jose holds a law degree by Universidad del Pacífico since 2020. He obtained a diploma in Law in the Digital Environment by Universidad ESAN and a Certificate in Legal Management by Universidad Austral in Argentina. Jose is a member of Peru Young Energy Professionals (PYEP), an association that seeks to empower and promote the participation of new generations in the development and improvement of the energy industry in Peru.
